Snow Plows and Mailboxes

It won't be long before we will experience the full effect of winter with snow and ice. We have a very dedicated Road Crew who will be plowing and salting the township roads.

Once in a while the plow will catch a mailbox, but that is not the norm. The reason for a mailbox being damaged is the actual weight of the snow and ice being pushed off the road.

The established policy for Randolph Township regarding the replacement of a mailbox is as follows:

If a mailbox is actually hit and damaged by a plow, it will be replaced with a like box. However, if the mailbox is pushed over by the weight of the snow and ice, it will be replaced with a plain metal mailbox.

Please call the Road Department at 330-325-2776 if you feel your mailbox may have been damaged by the plow. The road crew can tell by the marks on the post and/or box to determine how it was damaged. Any questions or problems with this policy should be directed to Trustee Gary L. Horning, who oversees the road department.
